ISSN: 1567-2050 (Print)

Aims & Scope

Current Alzheimer Research publishes peer-reviewed frontier review, research, drug clinical trial studies, letter articles, case reports, systematic reviews, and editorials on all areas of Alzheimer's disease. This multidisciplinary journal will help in understanding the neurobiology, genetics, pathogenesis, diagnosis and treatment strategies of Alzheimer's disease. The journal publishes objective reviews written by experts and leaders actively engaged in research using cellular, molecular, and animal models. The journal also covers original articles on recent research in fast emerging areas of molecular diagnostics, brain imaging, drug development and discovery, and clinical aspects of Alzheimer's disease. Manuscripts are encouraged that relate to the synergistic mechanism of Alzheimer's disease with other dementia and neurodegenerative disorders.

- ➔ Publishing Peer Reviewed Articles Rapidly
- ➔ Indexed in SCI Expanded, MEDLINE, Scopus, EMBASE, Neuroscience Citation Index and others
- ➔ FREE Online Trials for Institutions
